## Streamlining Communications

How many emails do you get a day? Too many to count - we are sure! Knowing this, the partners have decided to compose a weekly newsletter that will help streamline communications between you and us.

As a result, we will be emailing an electronic newsletter on an as needed basis.

We hope that this makes our communication efforts more efficient. Please share these newsletters with all coaches, teachers, and administrators involved in the coaching initiative.

In the near future, these newsletters will also be available online and past issues archived for easy and convenient retrieval.

The Advisory Council will be asked to give input into the development of future publications.

This newsletter could become another forum for sharing ideas and supporting each other's work on a state-wide level.

If you have any ideas for future newsletters, please send them to Susan Keck at [skeck@caiu.org](mailto:skeck@caiu.org).

## News From PLN

### Mentoring Program

After much reflection and discussion, PLN mentors will not be visiting schools for a second time this year.

Instead, PLN will focus their energies and resources on further developing mentoring skills

and planning for next year's mentoring sessions.

### Centralized Courses

Recently, each POC received a list of individuals who missed a day of training at the Centralized Course this past

summer. If this day is not made up by the end of December, they will receive an "incomplete."

These individuals can still make up the day during the spring sessions and receive a grade in June 06.

### ♦ January 21, 2006
