

Principal Diane Williams has just announced that Bellwood-Antis High School has been awarded the Bronze medal in the 2nd annual list of America's Best Schools. She received the good news from Brian Kelly, editor of US News and World Report. One of approximately 65 schools recognized in the state, Bellwood-Antis is the only school in Blair County to receive this distinction.

Principal Williams commented, "We attribute much of our success to PAHSCI and the impact that instructional coaching has had on our environment and on the performance of our students."
