- **The Professional Institute for Instructional Coaching**

The Professional Institute for Instructional Coaching is designed to help teachers effectively implement instructional practices through an instructional coaching and mentoring framework. Our focus is to prepare and support instructional coaches who provide ongoing and consistent job-embedded professional learning and development for teachers by building their instructional practice and pedagogical skills. Independent research has validated the efficacy of the program and the impact of instructional coaching on teachers, their instructional practice, student engagement, and student learning.

- **The Center for Cognitive Coaching**

Arthur Costa and Robert Garmston created Cognitive Coaching in 1984. They have developed a variety of training opportunities and written a book, Cognitive Coaching: A Foundation for Renaissance Schools, to support others in learning the process of Cognitive Coaching. This site provides training, resources and consultation on strategic planning for enculturating the principles of Cognitive Coaching. Individuals can also access the resources of CCC to enhance their skills as a coach in a variety of contexts.

- **Safe and Civil Schools**

PAHSCI mentors were trained by Tricia McKale of Safe and Civil Schools to support our instructional coaches in addressing this issue. The Safe and Civil Schools focus is on proactive,

positive, instructional behavior management practices. Coaching Classroom Management establishes the basis for a classroom management model designed for “addressing behavior before it necessitates correction, collecting data before embarking on interventions, implementing simple corrections before moving to progressively more intensive and time-intrusive ones, and setting a climate of respect for all.”
